Usage of Message Versions

Message version	Usage
BAPLIE 1.5 ¹⁾	still in use – 91-1
BAPLIE 2.2.1 (VGM)	frequently used – D.95B
BAPLIE 3.1.1 (VGM)	still rarely used – D.13B
MOVINS 2.1.2	frequently used – D.95B
MOVINS 3.0	publication still pending – D.19A

¹⁾ message version no longer maintained

Activities

BAPLIE minor amendments for versions 2 and 3 extension for “agreed number of slots”

Discussion about new version BAPLIE 2.3 referring to code lists

MOVINSv3

- ✔ New message structure in D.19A
- Align MIG with SMDG code lists HANDLING and STOLOC
- Draft MIG, to be reviewed during summer
- Finalize Message Implementation Guide for approval by SMDG plenary autumn 2019
- Export MIG to GEFEG validation portal
