

# DELIVER

FRICITIONLESS TRADE

BLOCKCHAIN DRIVEN

## Industry thought leaders in logistics, technology and finance

*"Innovation needs collaboration. By innovating throughout the bank and in different arenas, we'll continue add value for our clients, now and in the future."*

*"We're a leader in creating value from data and our vision is to create a prosperous value chain for all parties involved"*

*"We are fully committed in developing new business models with new techniques and through partnerships"*

# There is a lot to gain in logistics

**30%**

Of shipments is delayed

**28**

Parties involved per transaction

**44%**

of executives describe supply chain visibility as top priority

**25%**

of trucks on the road is empty

“Trade (finance) is a paper heavy industry  
with many inefficiencies.

**98% of all data interactions is merely  
duplication or transmittance**

within the field of trade finance “

BCG

“The Global Trade Finance Gap is  
estimated at

**\$1.5 trillion**“

Asian Development Bank

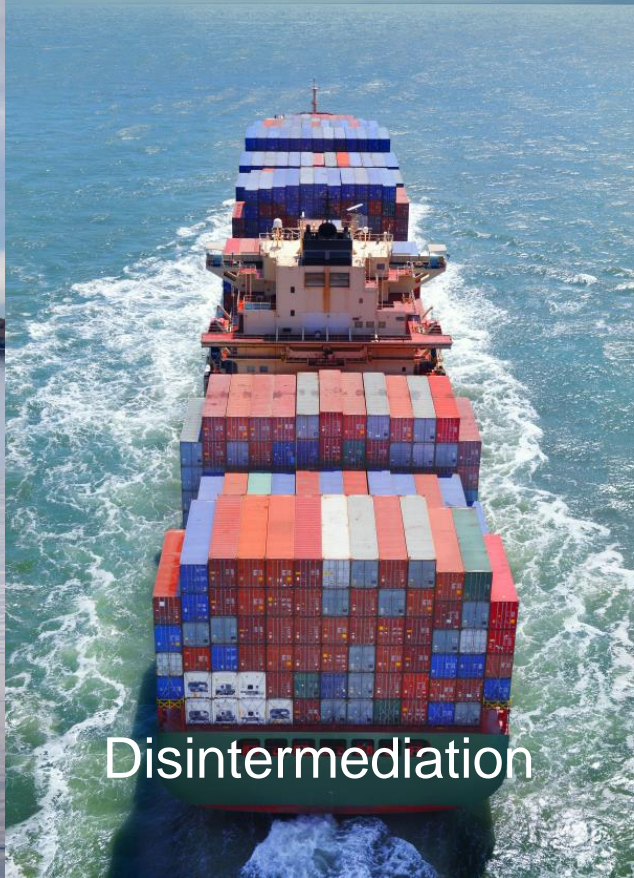

# OUR WORLD IN TRANSITION

Faster than we think. With greater impact than we think.

Digitalisation

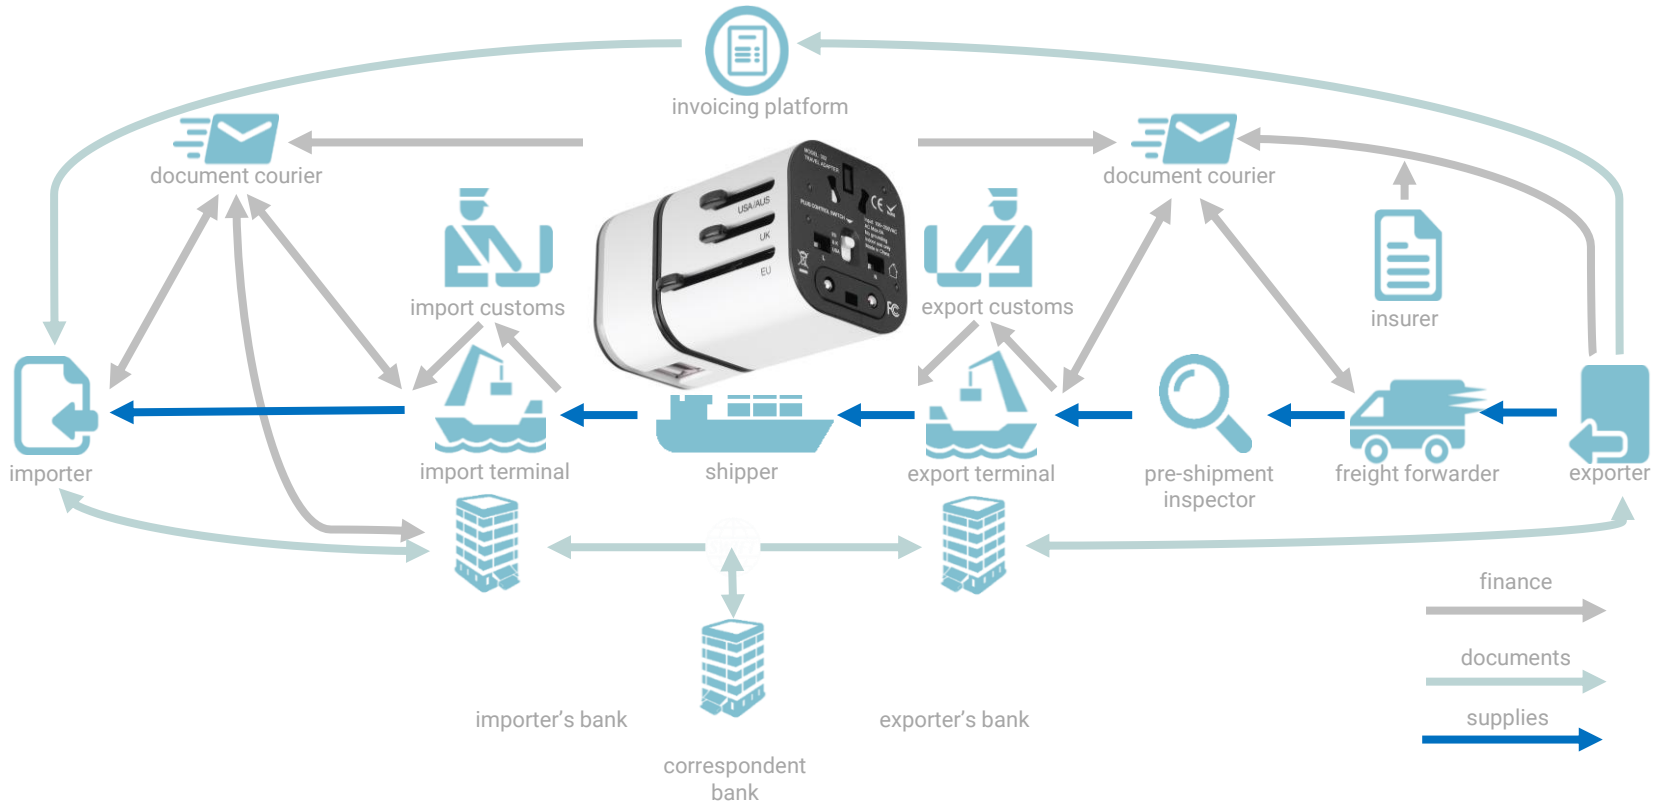

Disintermediation

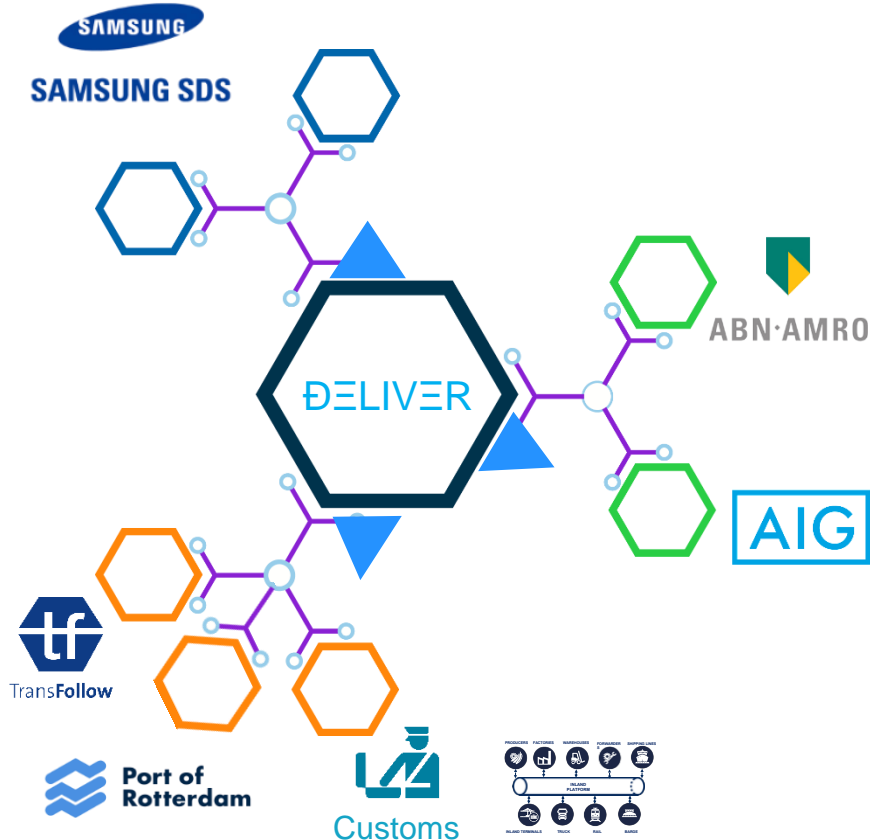

Disruption

# DELIVER IS THE MISSING LINK IN SUPPLY CHAINS

DELIVER

Current trade is not transparent, inefficient, complex, paper based, fraud sensitive, time consuming, knowledge intensive, lacking transparency and trust.
